Statement

List of projects covered under World Bank and ADB funding which includes two transmission projects in Orissa and Jharkhand.

A. PROJECTS COVERED UNDER THE WORLD BANK FUNDING

(1) Supplementary Transmission System associated with Sipat Stage-II Project.

(2) Transmission System associated with Barh Generation Project.

(3) North-West Transmission Corridor Strengthening Scheme.

(4) East-West Transmission Corridor Strengthening Scheme.

(5) Western Region System Strengthening Scheme-II.

(6) Eastern Region System Strengthening Scheme-I.

B. PROJECTS COVERED UNDER ASIAN DEVELOPMENT BANK FUNDING

(1) Transmission System associated with Kudankulam Atomic Power Project.

(2) Transmission System associated with NLC-II Expansion Project.

(3) Northern Region System Strengthening-V (NRSS-V).

(4) Enhancement of transmission capacity in East-West corridor of NR.

(5) Western Region Strengthening Scheme-VII (WRSS-VII).

(6) Transmission System associated with Tehri Pumped Storage Plant.

(7) North Eastern-Northern/Western Region Interconnector-I Project.

Per capita consumption of electricity

†2908. SHRI LALIT KISHORE CHATURVEDI: Will the Minister of POWER be pleased to state:

(a) the details of per capita electricity consumption at present, State-wise;

(b) whether any assessment has been made to find out the reasons for different averages in different States;

(c) whether Government is making any efforts to minimize this difference by doing away with imbalance in supply; and

(d) the details of efforts being made in this regard?

THE MINISTER OF STATE IN THE MINISTRY OF POWER (SHRI JAIRAM RAMESH): (a) and (b) According to provisional estimates worked out by Central Electricity Authority, per capita consumption of electricity in the country during the year 2006-07 was recorded as 671.89 kwh. The details of State-wise annual per capita consumption of electricity for the year 2006-07 provisional are enclosed as Statement (*See* below). It may be seen that in terms of per capita consumption there are large regional and State level variations. The per capita consumption of electricity in a State, at any point in time, is dependent upon a

† Original notice of the question was received in Hindi

range of factors that include the level of industrialization, climatic conditions, growth in the State's domestic product, household income levels, penetration of electrical appliances, percentage of households having access to electricity, installed generation capacity in the particular State, availability of electricity from other sources and the growth rate of population.

(c) and (d) Electricity being a concurrent subject under the Constitution, supply and distribution of electricity to different areas and various categories of consumers in a State falls within the purview of the concerned State/Power Utilities. The State Governments are required to add capacity according to their requirements. The Government of India only supplements the efforts of State Governments by way of Central generation capacity and bulk transmission of power through the Central Sector Power Utilities. However, to improve the overall availability of power across the country, the following steps have been taken/are being taken by the Government of India:

(i) Augmentation of generating capacity by 78,577 MW has been envisaged in the Eleventh Plan. Of this about 50% is to be in the Central sector.

(ii) Power Finance Corporation and Rural Electrification Corporation have geared themselves up to mobilise funds so as to ensure that viable projects do not suffer for want of funds.

(iii) To achieve the goal of complete rural electrification, the Rajiv Gandhi Grameen Vidyutikaran Yojana has been launched.

(iv) Strengthening of inter-State and inter-regional transmission capacity for optimum utilization of available power.

(v) Promoting demand side management, energy efficiency and energy conservation measures.

Statement

State-wise details of Annual Per Capita Consumption of Electricity during the Year 2006-07 (Provisional)

(kWh)

Name of the States	Per Capita Consumption
1	2
Haryana	1208.21
Himachal Pradesh	872.00
Jammu & Kashmir	758.63
Punjab	1506.28
Rajasthan	590.69
Uttar Pradesh	340.50
Uttarakhand	706.84
Chandigarh	1486.68
Delhi	1417.22
Sub-Total (NR)	623.09

1	2
Gujarat	1330.82
Madhya Pradesh	581.73
Chhattisgarh	934.78
Maharashtra	975.43
Goa	2097.71
Daman &Diu	8950.43
Dadra & Nagar Haveli	13310.33
Sub-Total (WR)	969.08
Andhra Pradesh	802.38
Karnataka	805.50
